SUPERIOR MINING INTERNATIONAL CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
APRIL 30, 2007

1. NATURE AND CONTINUANCE OF OPERATIONS AND SUGNIFICANT ACCOUNTING POLICIES

Superior Mining International Corporation (the "Company") is a Canadian company incorporated in the Yukon Territory. The Company is primarily engaged in the acquisition, exploration and development of mineral properties. Effective May 10, 2006, the Company consolidated the number of its issued and outstanding common shares on the basis of one new share for every five existing issued shares. The number of shares, options and warrants in Note 7 have been restated to give retroactive recognition of the share consolidation for all periods presented. In addition, all references to number of shares and per share amounts in these financial statements have been restated to reflect the share consolidation.

The recoverability of the amounts shown for mineral properties and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

The consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. The Company's ability to continue as a "going concern" is dependent upon achieving profitable operations and upon obtaining additional financing. The outcome of these matters cannot be predicted at this time. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.
